

Hello, Everybody!

How to get started
with
Music Together's
Hello Everybody! app.

First, get the app on your device for free
from the iTunes store (for Apple products)
or Google Play (for Android products).

1

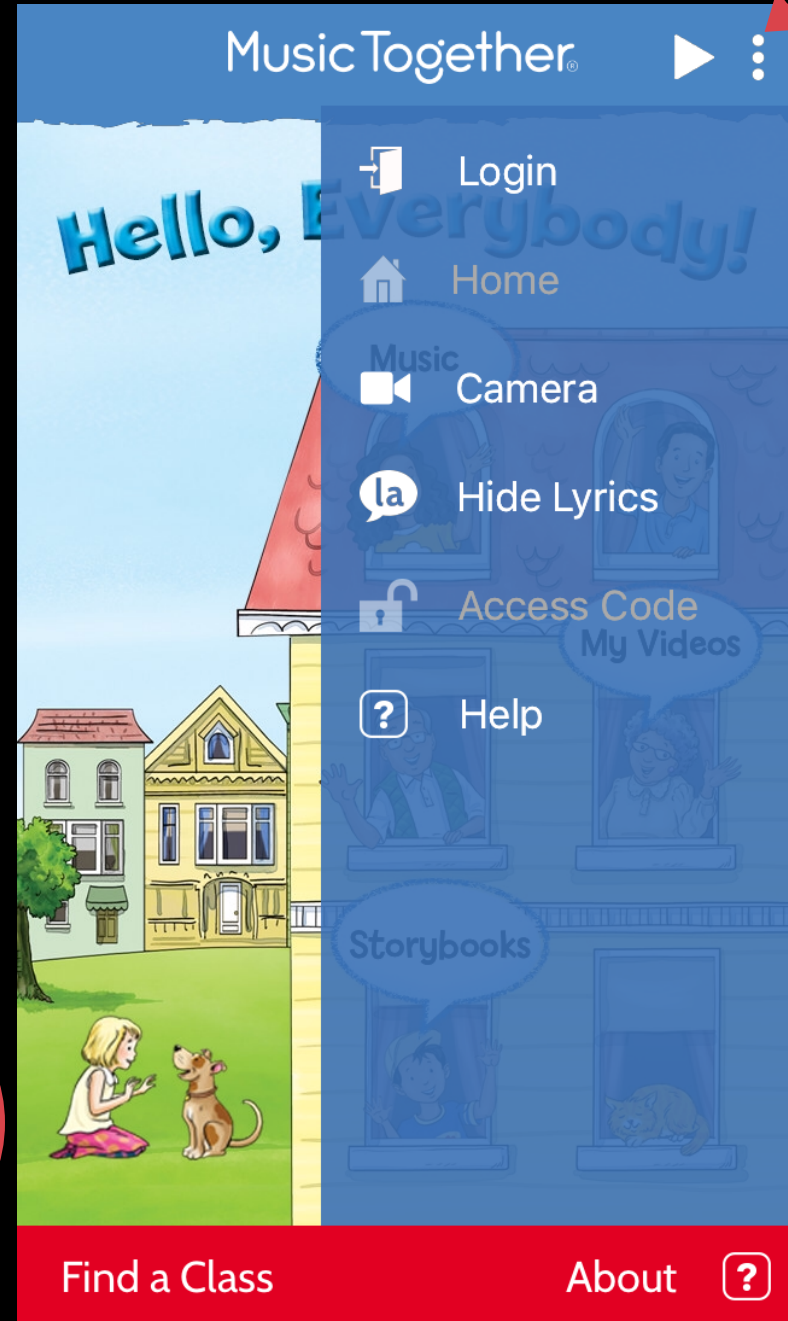

Open the app. Introductory music and the *Hello Everybody* singalong storybook are already there!

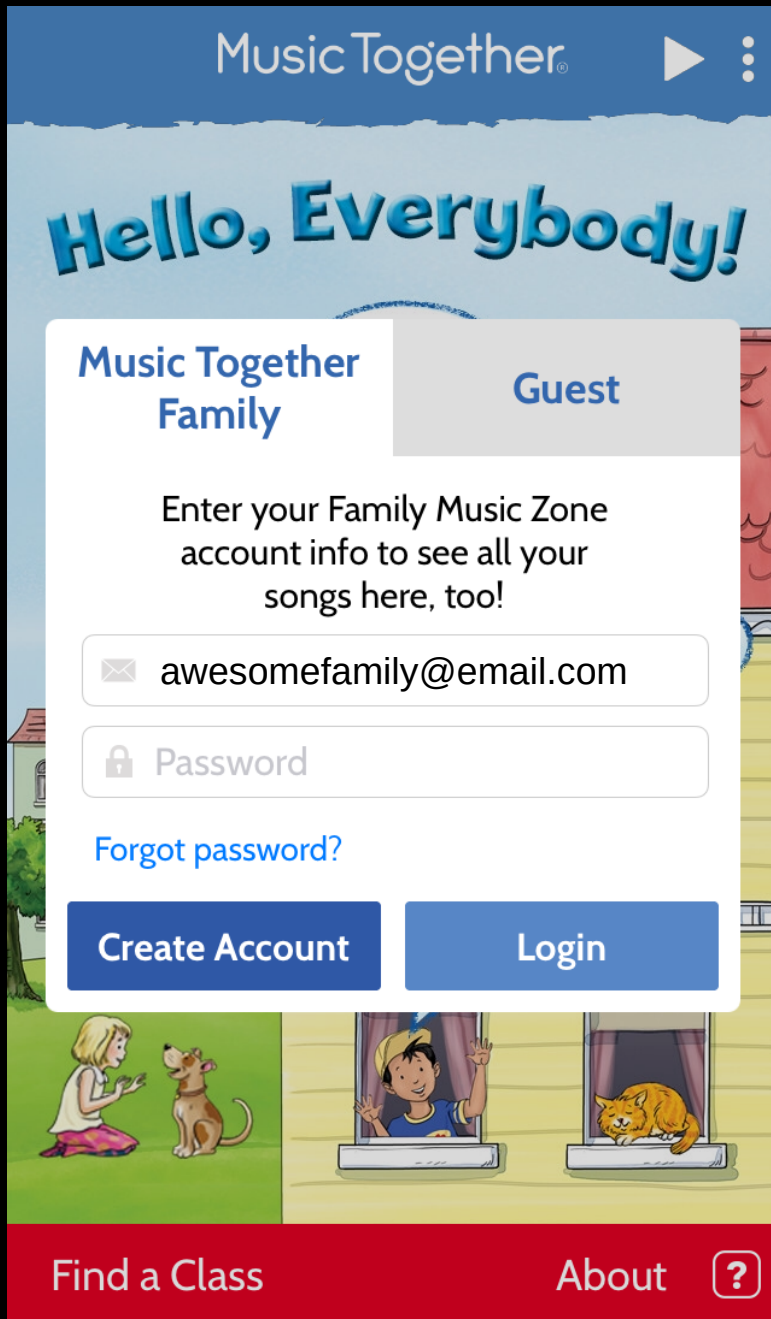

Pro Tip:
Click on the
cat or
dog!

2

Tap the three dots at upper right, click on "Login" to create an account.

3

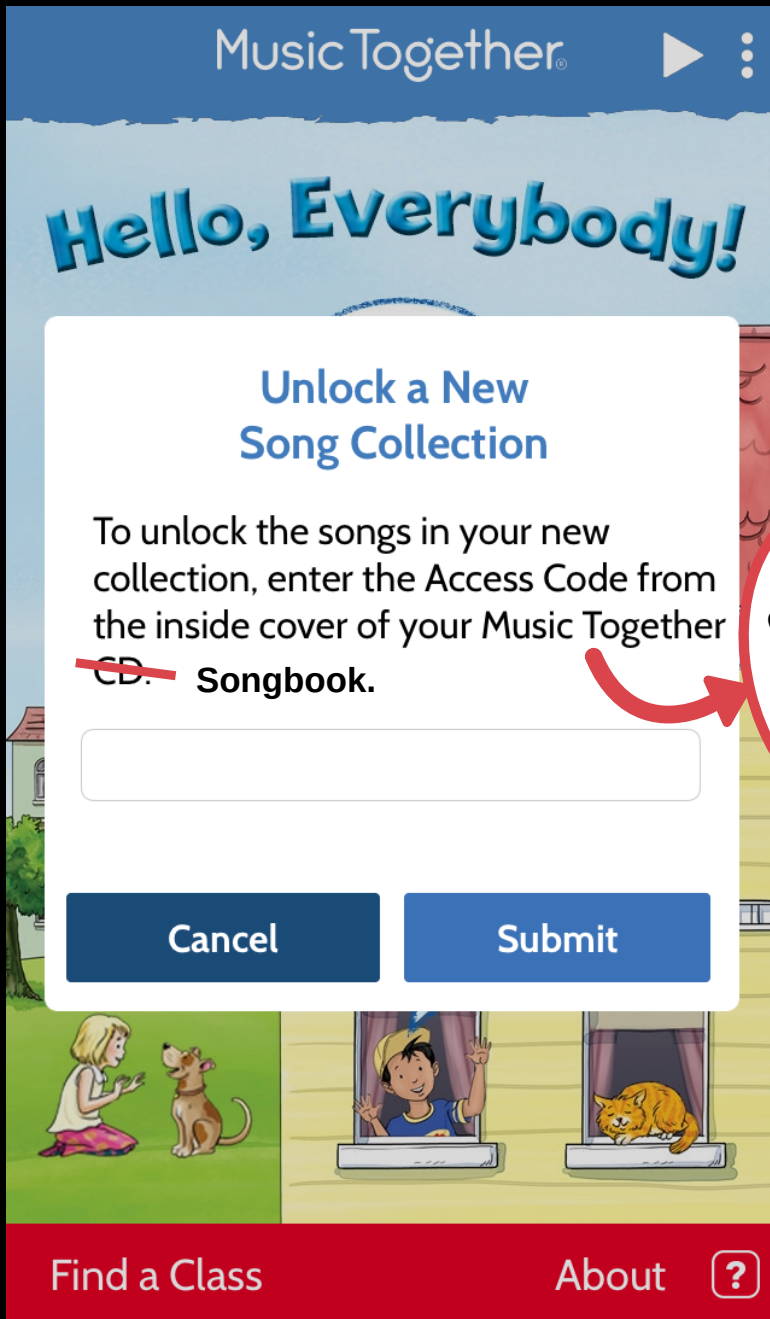

Create an account with your e-mail address and a password. Or, if you already have an account on the Family Music Zone (the FMZ is a digital page for families; different from the app), then use the same login information as you have for the FMZ account.

More than one device in your family?

Families can download the songs from the same collection onto more than one device, but they **must use the same account info (e-mail and password) on each device.**

4

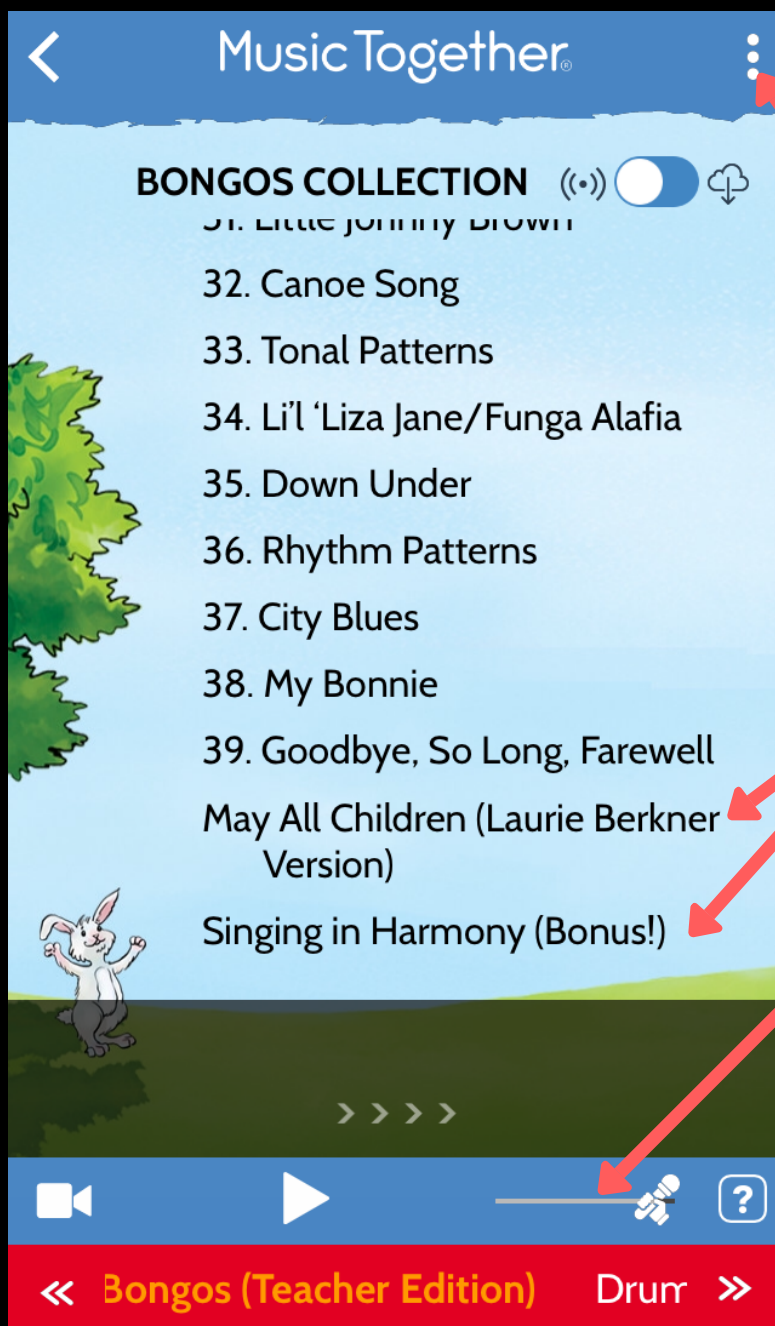

Enter the access code from the front cover of your SONGBOOK and click "Submit." Your songs will appear in the "Music" section! Just click the "Music" bubble on the home page.

Code now
found
in your
SONGBOOK

5

Click on the song name you want to play.

You can see the lyrics while a song is playing, or hide them. Control that by clicking the three dots in the upper right.

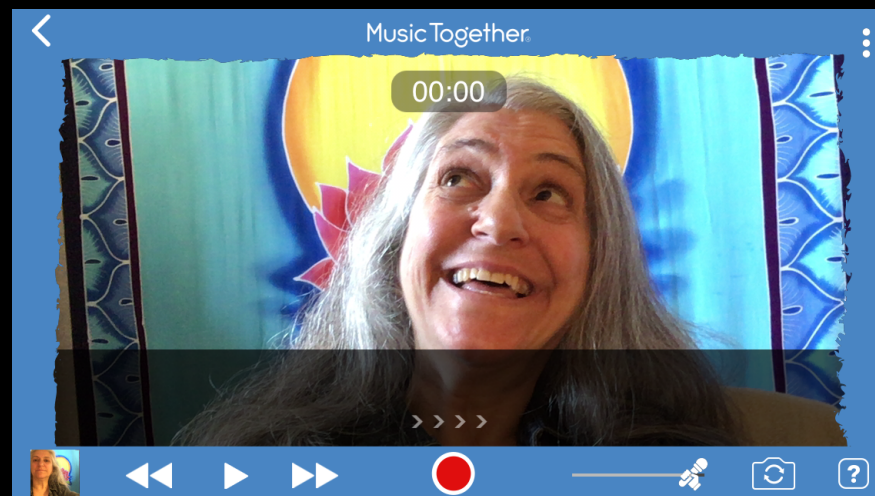

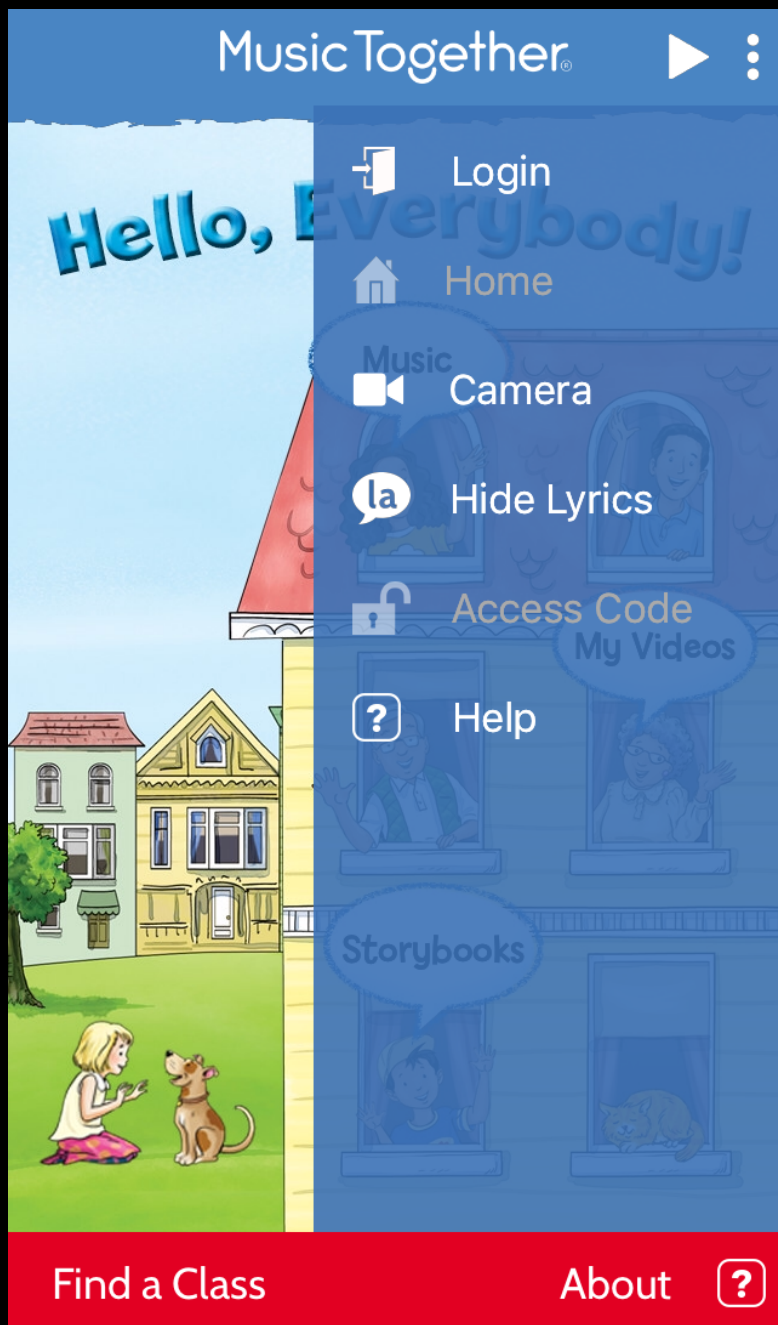

If there are any Bonus Songs with your collection, they will be here, right after *Goodbye, So Long, Farewell*. (There's not always a Bonus Song)

Slide the microphone back and forth to either hear the recorded vocals or take the recorded vocals away. You can sing with the music like karaoke!

The names of all the collections you've entered will appear along the bottom. **Scroll sideways through your collections!**

6

Tap the three dots in the upper right to access the camera and make videos! You can make videos with your kids while the music is playing, and sing along!

7

Find your videos in the "My Videos" bubble.

8

Access a free digital version of the *Hello Everybody* singalong storybook in the "Storybooks" bubble!

And...

9

Coming up in FALL 2018:
the "Let's Play" section!

Keep checking your app, because very soon "Let's Play" will be up and running!

There, you'll find PDF files of all the music notation for the songs, as well as fun art ideas, videos and info about the current collections' songs, and much more.
